Family Owned Value Driven

For over two Decades, QR Stone has been an innovative leader in veneer stone manufacturing.

In the ever-evolving creative landscape, a new generation of visionaries is pushing the boundaries of architectural design. QR Stone is at the forefront of this movement. Our Forward-thinking mold design has redefined what once was, into what now can be.

You can choose between any of our nine distinct stone profiles. Whether that's our Tru Fit panel, painstakingly crafted for your mid-century modern home, or bring the outdoors in with our Scandinavian inspired Weathered-Edge. We hope this product guide helps to inspire the organic design that ultimately makes your house a home.

Thin Brick Weathered White

All New for 2025 Thin Brick

Chicago common brick was originally manufactured in the late 1980's. Through building demolition and product reclamation, we have remastered this timeless classic.

Highly irregular in Shape and Texture. Thin brick veneer offers old-world charm, with the convenience of streamlined installation.

Thin Brick Harvest Wheat

Thin Brick Volcanic Ash

Approximate Thin Brick Dimensions

Height 2.25"

Length 7.625"

Depth .675 - .75"

Thin Brick Weathered White

Tru Fit Charcoal Gray

Tru Fit

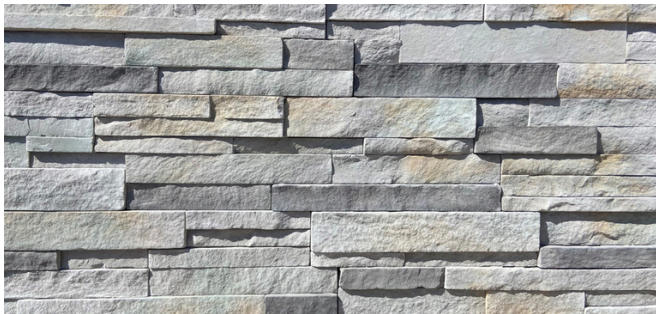

Tru Fit with TIGHT-SEAM technology is a linear panel that creates a modern, elegant look. Unlike classic stone veneer that is installed one stone at a time, our Tru Fit contains multiple stones per panel. This panel provides quick and easy installation and a professional look to any project.

Tru Fit Coastal Dune

Flat panel dimensions

Finished end piece dimensions

Corner piece dimensions

The rocked edges meet at the outside corner to create a finished look.

Panel Depth 1" to 1 3/4"

TIGHT-SEAM technology

All TRU FIT panels have a beveled back (TIGHT-SEAM technology) that allows the pieces to connect, virtually holding the seams. The bevel also creates a void that allows excess mortar to fill without disrupting the seamless appearance.

Cobblestone Slate

Cobblestone

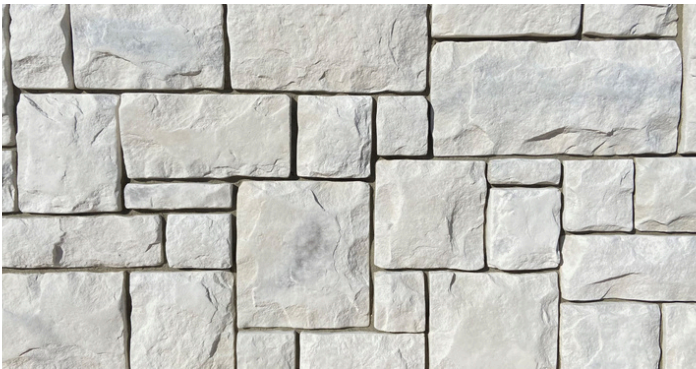

Instantly Timeless, this classic has a historical yet complex old-world European look.

WARRANTY

A Lifetime of Coverage

QR Stone products are covered for the lifetime of the original purchaser when used on a structure which conforms to local building codes and when installed in accordance with the manufacturer's instructions. For certain specific applications, QR Stone Incorporated requires a ventilation device be installed after applying moisture barrier and before applying wire lathe and mortar scratchcoat. This is only a requirement where building code requires, and for commercial applications. We also recommend it for residential applications, however, it is not required unless local or state building code requires. QR Stone will repair or provide, free-of-charge, new materials to replace those which are determined to be defective. This warranty is limited to the original purchaser and may not be transferred to any subsequent owner.

This warranty does not cover damage resulting from Settlement of the building or other wall movement, contact with chemicals, discoloration due to airborne contaminants, staining or oxidation. Warranty covers only manufacturing defects in QR Stone manufactured stone products. QR Stone is not responsible for labor costs incurred in the removal and replacement of defective products.

*Do not clean with acids or cleaners containing acid.

*Do not clean with high pressure power washers.

INSTALLATION

QR Stone is a versatile product which can be used on the interior or exterior of residential and commercial buildings. QR Stone can easily be installed on virtually any surface and is ideal for both new construction and remodeling projects. Each Stone is to be applied individually using Type N or Type S mortar. Please see QRStone.com for full detailed installation instructions.

MAINTENANCE

QR Stone Products require very little maintenance. If needed, gently clean the stone with granulated soap or detergent mixed with water and a bristle brush. Do not use a wire brush to clean.

TECHNICAL DATA

QR Stone products are manufactured to meet or exceed the expectations set by local building codes. QR Stone is manufactured to meet ASTM Standards for compressive strength, rapid freezing and thawing, shear bond, linear drying shrinkage, and weight per square foot. Testing data is available upon request.

UNIT WEIGHT

Rustic LedgeStone, Weathered Edge, Splitface, and Fieldstone: 11-12 lbs per sqft

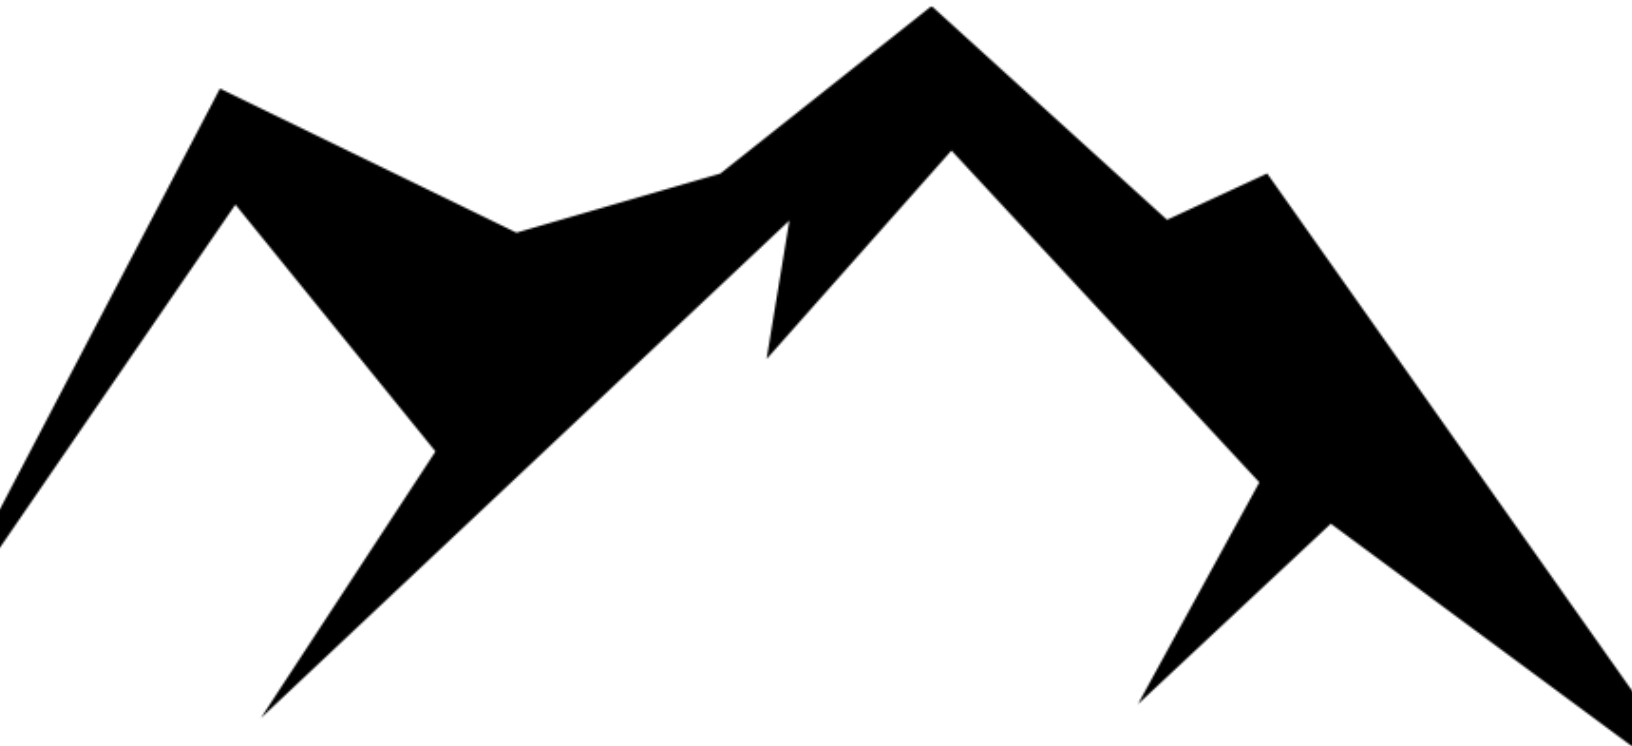

Country LedgeStone, Cobblestone, Dressed Fieldstone, and Tru Fit: 10-11 lbs per sqft
